

Are you a faith-based organization interested in developing or continuing ministry and services to persons, families, and communities living with HIV/AIDS? Then join us for:

## Faith Responds to AIDS

**Mission:**

The Faith Responds to AIDS committee of the Service Providers Council strives to develop and engage a broad interfaith coalition of Chicagoland area leaders, organizations, and faith communities in a committed and effective response to stop HIV/AIDS and its destructive impact on human bodies, spirits, and communities.

**Goals:**

- ❖ Provoke faith communities to deal with the HIV/AIDS crisis in their midst.
- ❖ Identify educators, provide training, and develop materials to educate faith communities, and service provider organizations that work with faith communities and its own coalition of members about HIV/AIDS.
- ❖ Offer comprehensive sex education for adults and youth; provide safe spaces for a dialogue on homophobia; provide workshops on communication, pastoral care, and family/community support.
- ❖ Create messaging, framing, and response team within the Coalition to respond specifically to neglect, misinformation, and ignorance within the “public square.”
- ❖ Develop materials that help institutions and organizations understand the role of public policy and advocacy issues.
