In 2016, the AIDS Foundation Chicago launched its 30th year of service by introducing the Positive Momentum: 2016-18 Strategic Plan. This plan is a transformative vision that charts AFC's course for the next three years, uses our strengths as a community mobilizer in size and scale, and brings together all our resources to support people living with and vulnerable to HIV.

The Positive Momentum: 2016-18 Strategic Plan is designed to:

1. Prevent new cases of HIV.
2. Improve health equity.
3. Serve as a collaboration and knowledge center.
4. Be a thought leader and resource center to create and share best practices, innovations and models.
5. Be a bold voice for change.

Our Mission
We will reduce new HIV infections through innovative approaches to prevention, care, and treatment. We will increase access to high-quality, comprehensive prevention, care and housing services free from stigma.

Our Vision
We will be a leading voice to mobilize advocates and people living with HIV and related chronic diseases to transform systems, policies and resources. Our Vision is a world in which HIV and related chronic diseases can be managed, endured, and overcome. In this world, people living with HIV will thrive, and new HIV infections will be rare.

Our Strategic Priorities

STRATEGIC PRIORITIES

1. Developing and expanding equitable, comprehensive prevention, care and housing services.
2. Serving as a collaboration and knowledge center.
3. Being a bold voice for change.

In 2016, through the largest single-day health plan community engagement event in the country, AFC connected 5,480 people to equitable health care. In 2015, through the largest coordinated HIV case management system in the world, AFC awarded $7 million in case management funding to 30 organizations in the country, AFC connected 5,480 people to equitable health care. In 2015, through the largest coordinated HIV case management system in the world, AFC awarded $7 million in case management funding to 30 organizations in the country, AFC connected 5,480 people to equitable health care.
