

## **NORTHEASTERN ILLINOIS HIV/AIDS CASE MANAGEMENT COLLABORATIVE**

**Date:** September, 2022  
**To:** All Case Managers, Case Manager's Supervisors and Subcontractors  
**Cc:** AFC Staff  
**From:** Mara Williamson, Training Manager  
**Re:** October—March 2023 Training Calendar

AFC is pleased to present the training calendar for October—March 2023 Calendar. In this year's training calendar, AFC has selected trainings based on feedback from case managers and trainings that are required from city, state, and federal agencies. We feel confident that this calendar and the updated training SOPs will meet your training needs. Should you have any additional questions, feel free to contact the training team via [trainings@aidschicago.org](mailto:trainings@aidschicago.org).

Case managers are required to attend a minimum of 12 training sessions within the contract year from March 1, 2022 through February 28, 2023 for Part A and April 1, 2022 through March 30, 2023 for Part B. All AFC Certified Medical Case Managers from Part A and Part B must attend four (4) trainings from the AFC-sponsored clinical track or other clinical trainings. Please note that Supervisors have new requirements this year (see supervisor trainings on the next page). The SOP requirements for case manager trainings are as follows:

- 4 trainings completed by medical case managers must be clinical trainings.
- Cultural Competency Training
- DRS Update meetings for all DRS funded staff
- Semi-Annual Case Manager Updates hosted by AFC
- Annually completing the IDPH Data Confidentiality and Security Training
- Annually completing the IDPH HIPAA and AIDS Confidentiality Act Training
- Other mandatory trainings as requested by AFC or alternate funding entities
- Abused and Neglected Child Reporting Act (ANCRA) all new staff must complete the "Acknowledgement of Mandated Reporter Status" form prior to employment; and complete the Illinois Mandated Reporter online training for both new medical and non-medical case managers.

## **TRAINING CATEGORIES:**

### **Supervisor's Training**

Please note that Supervisor requirements have changed. Supervisors are required to **only** attend all 4 of these trainings, and if more than one is missed in a calendar year, the supervisor might be required to take a recertification exam to ensure they are up to date with all funding expectations. These are mandatory quarterly discussions of current issues regarding supervision for supervisors, and a small section at the end for AFC/Funder updates. This reduces the previous requirement of 12 trainings for supervisors to only 4. We are happy to have invited Jacqueline Boyd, of The Care Plan, to facilitate the first portion of these trainings.

### **Semi-Annual Updates (Mandatory)**

Offered every six months. These group presentations will continue to be offered every six months, and will be five (5) hours long, with a lunch break included, to continue to allow for more intensive discussion and skills building. These updates are mandatory for all case managers regardless of whether training requirements have been fulfilled.

### **Clinical Trainings**

Offered multiple times across the calendar, these are for Medical Case Managers who want to satisfy their four (4) required clinical training clinics. These clinics will focus on the biological, clinical, legal, and medical factors that impact people living with HIV. Examples include, medication adherence, HIV 101, interpreting HIV labs, mental health, legal expungement, and substance use. Clinical clinics are trainings that are offered by practitioners or clinicians such as nurses, medical doctors, physician assistants, licensed clinical social workers, lawyers, licensed professional counselors, etc. The group is limited to 25 case managers per session and pre-registration is required. These training types may also be satisfied through MATEC, IDPH, CDPH or other clinically pre-approved trainings.

### **Information and Resources Clinics**

Offered frequently each month, these are voluntary groups for case managers who want additional technical assistance in accessing SSI, SSDI, Public Aid, and other entitlements and resources in the community. Also, the clinics are for any case manager. The focus is on small group problem-solving and resource consultation. The group is limited to 25 case managers per session and pre-registration is required.

### **DRS Update Trainings**

These are quarterly discussions of current issues regarding DRS case management program and are coordinated by Michael Grego from AFC and Kimiko Wilson from AIDS Administrative Unit. The group is limited to 25 case managers per session and pre-registration is required.

### **Non-AFC Sponsored Training Events**

Case managers are allowed credit for trainings and webinars not facilitated by the AIDS Foundation of Chicago counting toward the requirement. These meetings must be documented in Provide.

Additionally, if the medical case manager is requesting clinical training credit, they must do so in Provide and should be prepared to state which clinician gave the training if asked.

### **RW Competency Training**

This is a mandatory training that is offered via an online component and then a live component over three consecutive days every quarter for new case managers in the system. Any case manager may attend, however priority is given to AFC-funded positions, then positions at AFC funded agencies, then any other partner with staff requesting training. This training does not count toward the 12 mandatory trainings case managers must take every year. Pre-registration is required.

### **New Case Managers**

New Case Managers that begin employment during a contract year will have the training requirement prorated starting the month after hire through the end of the contract year. For example, if a Part A (March through February contract) case manager begins employment on June 15, at the end of the contract year they will have been a case manager for 9 months. The Part A Case Manager will be required to attend 8 trainings and four of those trainings will need to be a part of the clinical track.

### **DRS Training**

This is a mandatory five-day training offered every quarter to new DRS case managers in the system. This training does not count toward the 12 mandatory trainings case managers must take every year. Pre-registration is required.

### **Emergency Training Events**

On rare occasions, AFC Staff are required to hold mandatory “all case managers” meetings to share time-sensitive case management information. These meetings will never exceed twelve hours in a 30-day time period (as per the Case Management Contract Exhibit) and will count toward the twelve professional development sessions per year.

### **Health Care Reform**

Due to the changes in the health care system, AFC may hold mandatory all case managers meetings and/or webinars to share time-sensitive case management information regarding how these dramatic changes will affect our program. These meetings will never exceed twelve hours in a 30-day time period (as per the Case Management Contract Exhibit) and will count toward the twelve professional development sessions per year.

### **MATEC Trainings**

These intensive trainings are offered by MATEC and cover various topics related to clinical management of HIV and follows federally approved guidelines. **Pre-registration is required** for all programs and are offered at no cost to case managers from Part A-funded agencies. Additionally, these trainings must be entered in Provide for credit. For information regarding these programs please visit [www.matec.info](http://www.matec.info)

## **Mandatory Requirements**

Case managers must attend a minimum of twelve (12) AFC-approved professional development trainings annually, and failure to comply with this will void your Medical Case Manager Certification which you will have to retake and successfully complete our competency training to obtain.

Depending on your funding source, please note the following requirements:

### **Required Trainings**

1. 4 trainings completed by medical case managers must be clinical trainings to maintain their Medical Case Manager certification.
2. Cultural Competency Training
3. Annually completing the IDPH Data Confidentiality and Security Training
4. Annually completing the IDPH HIPAA and AIDS Confidentiality Act Training
5. DRS Update meetings for all DRS funded staff and their DRS Supervisors
6. Supervisor Trainings conducted by AFC for Supervisors
7. Semi-Annual Case Manager Updates hosted by AFC
8. Other mandatory trainings as requested by AFC or alternate funding entities
9. Abused and Neglected Child Reporting Act (ANCRA) all new staff must complete the "Acknowledgement of Mandated Reporter Status" form prior to employment; and complete the Illinois Mandated Reporter online training for both new medical and non-medical case managers.

### **Optional Trainings**

AFC encourages funded agencies to participate in scheduled trainings. Training calendars are updated on the AFC website and the AFC Learning Management System. Non-AFC sponsored trainings can count toward the required 12 trainings as long as they have been approved in advance by the Part A and Training Manager at AFC.

1. MATEC & AFC Trainings
2. Information & Resources Clinics
3. Introduction to DRS
4. Quarterly Service Updates / Supervisory Strategies
5. Local, regional and/or national conferences

## **TalentLMS**

All cohort members will automatically be enrolled into TalentLMS. You should have received your login information within your first few days of employment. In order to access the training platform, you must be logged in before using the system, which you can do here: <https://afc.talentlms.com/>. Your login will likely be the first initial of your first name + last name. This would look like "Jdoe" for Jane Doe. Your email address associated with this should be your work email. If you cannot login, or have any problems using TalentLMS please contact [trainings@aidschicago.org](mailto:trainings@aidschicago.org)

## Direct Service Updates and Refreshers

These trainings will focus on new information important to case managers and others in the cohort, as well as review and go over things related to day-to-day work with programs such as Provide.

### These Are Offered In a Hybrid Training Format

These trainings will be offered in a hybrid format. You can attend either remote via Zoom registration, or in person. If you plan to attend in person at our 200 W. Monroe St. location, you will need to email [Trainings@aidsschicago.org](mailto:Trainings@aidsschicago.org) at least 48 hours in advance for building security purposes, and a mask will be required to be worn at all times inside AFC spaces.

| Date                            | Time          | Training Topic                                                                                                                                                                                                                                                              | Location       |
